

**FIRE INNOVATIONS®**  
Inventive Technology for Fire & Rescue Service

# ARAPAHO™

NFPA UL CERTIFIED  
ESCAPE & LADDER BELT  
CLASS II HARNESS

UL CERTIFIED TO  
**NFPA 1983: 2017<sup>ED</sup>**  
FLAME RESISTANCE OPTION

## BELT FEATURES

Sized to be donned over the turnout pant.

With the optional ladder hook, this harness functions as a ladder belt.

Fits most firefighters, adjustable to his/her waist.

## HARNESS FEATURES

Manufactured to NFPA 1983 Standards. Class II Harness.

# Arapaho™

## NFPA Escape & Ladder Belt NFPA Class II Harness

### HIGHLIGHTS

- NFPA Class II Harness
- NFPA Escape & Ladder Belt
- 100% Kevlar construction
- UL Rated NFPA Certified Aluminum Hardware

### VERSATILITY

The Arapaho Series is a modular belt that extends the features from an NFPA Escape Belt, to a NFPA Ladder Belt, to a NFPA Class II. This harness is adjustable from 28" to 52" to easily accommodate most firefighters. This harness can be outfitted with a ladder hook along with a bailout system for added versatility.

Part No.

1101-0053	Arapaho Belt
1101-0054	Arapaho Leg Straps
1101-0055	Arapaho Class II

### NFPA ESCAPE BELT

The Arapaho is the only all Kevlar, A-frame UL-Certified NFPA Escape & Ladder Belt. It utilizes custom Cobra Frame Buckles.

### NFPA LADDER BELT

Adding a NFPA ladder hook will extend the A-frame to turn this Escape Belt into a UL-Certified Ladder Belt.

### NFPA CLASS II HARNESS

Leg straps converts the Arapaho into a UL-Certified NFPA Class II Harness. The Aluminum O-ring deploys as part of the A-frame and simplifies pre-connection to a bailout system.

### SPECIFICATIONS
